---

Good Afternoon,

Please find the attached file to the Salt River Project (SRP) Alternate Liner Demonstration Extension, due to analytical limitations pursuant to the Code of Federal Regulations Title 40 CFR § 257.71(d) for its "Evaporation Pond" at SRP's Coronado Generating Station ("CGS"), located in St. Johns, Apache County, Arizona. SRP needs until April 14, 2022 to complete its hydraulic conductivity measurements and compile its alternate liner demonstration. This requested completion date is based on the certified expected date of completion of the final hydraulic conductivity laboratory test and reporting plus the allowable 45 day timeframe to complete and the submit the demonstration.

Any questions regarding the contents of this extension request may be directed to myself, Andrea Martinez at 602-236-2618 or [Andrea.Martinez@srpnet.com](mailto:Andrea.Martinez@srpnet.com). If you have any issues accessing the attachment, please let me know. A successful transmittal notification would be greatly appreciated. Thank you so much for your time and consideration.

**Andrea Martinez**
